Modernization Program Brings Homes of Beauty, Comfor

COMFORT AND BEAUTY URGED

Artistic and Comfortable Home Combines Two Important Factors

The home owner who decides to modernize his home has in mind two important factors that must enter into every modernizing project.

Both the interior and exterior appearance of his home must be beautiful.

And at the same time comfortable.

Comfort and beauty are essential if the home is to meet in the highest degree the requirements of the family. If one or both are absent the sense of completeness is not satisfied.

Beauty Reflects Taste

A beautiful home appeals to the artistic appreciation of the family. It reflects suitably the taste and refinement and good breeding of the household. The judgment of the neighbors about the occupants of the house is based largely on the exterior lines of the building and the character of the furnishings of the interior.

The family that is satisfied to live in an ugly box like house with the antiquated Victorian lines that were the style years ago is marked down at once as lacking in good taste. Sordid commonplace surroundings are generally evidence of similar natures.

If the home has modern lines and an up to date appearance the craving of the family for beautiful surroundings is to a large extent gratified. When this desire for the beautiful is met by artistic fixtures tastefully decorated room well arranged furniture and all the modern touches that are in vogue today this desire is largely met.

Not only are the requirements of the family met but also the judgment of outsiders vindicated. The home becomes a true expression of the family standing.

Important as is beauty to the home owner and his family the desire of bodily comforts is equally great.

When the home is lacking in those things that cater to the physical well being of the individual the home does not have that lure that is always associated with the word. The uncomfortable home is a mere sleeping and eating place—a place to be avoided rather than sought.

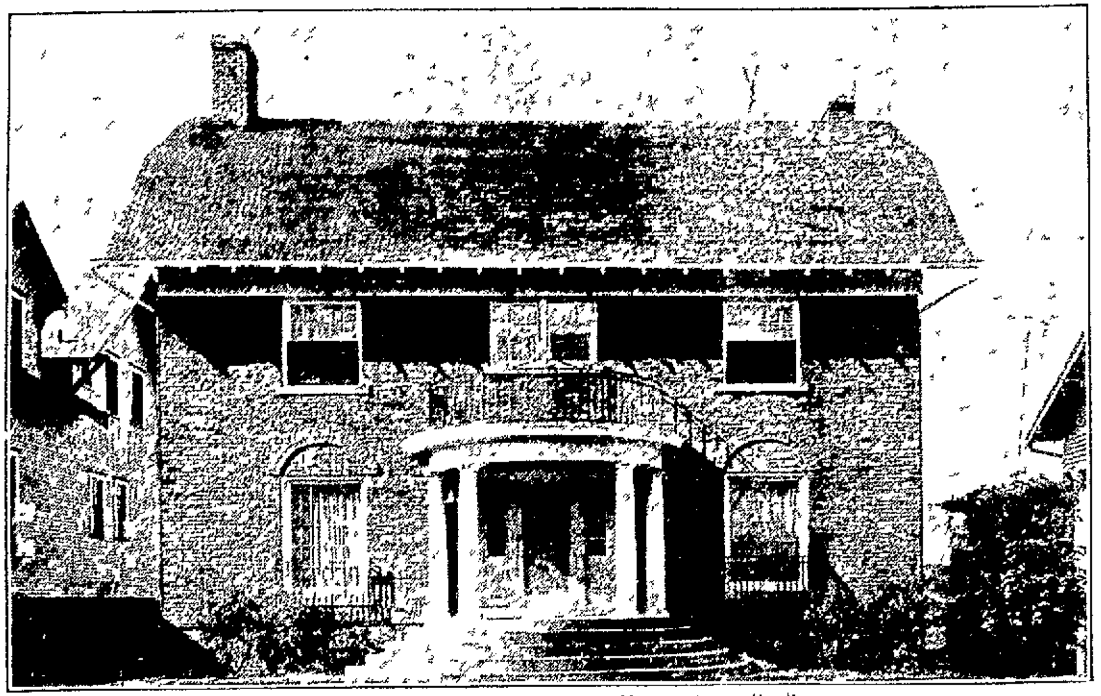
To the housewife who is compelled to labor with make-shift household equipment and a dearth of modern conveniences the old fashioned house has little appeal. It becomes a sort of unofficial prison to which she is sentenced by circumstances.

But with modernization the home takes on a compelling attraction. It becomes a delightful center of home activities and a pleasant place to be. Outside amusements do not assume the importance of previous days but become diversions that serve to emphasize the allurement of the home.

Homes of beauty and comfort are easily acquired. The price for a pleasant place to live is low. The cost of modernization from a dollars and cents standpoints averages $2 000. Scattered over a term of years the monthly cost of modernizing the dwelling is decidedly less than the outlay in cash that goes with living in antiquated houses.

If you live in a home that is lacking in beauty and comfort the wise thing to do is to investigate the results that come with modernization. Find out for yourself what changes are needed to make your home bright and cheerful and a real place to live. Estimate the cost of these changes and weigh carefully the cash outlay against the increase in mental satisfaction that comes with the new lines and attractive fixtures and the bodily comforts that also result. You will no doubt find that in the long run the investment of money in the modernized house will be one that pays permanent returns in renewed home life.

ENTRANCE BREATHES HOSPITALITY SPIRIT



When the old deep shadow producing porch was removed from this brick residence and an attractive white pillared entrance substituted the home took on a new appeal. Note in the above illustration the touch of modernization that lifts the residence out of the commonplace.

SMALL PORCH MODERN TOUCH

Deep Bulky Fronts on Houses Liability Instead of Asset to Home

The average person would be very well satisfied to live in the residence illustrated below. It is a solid substantial appearing dwelling with a complacent air of dignity and worth. To the casual passer-by it is one of the better homes on the street.

This residence was built some 10 or 15 years ago when deep roomy open porches were still in vogue. It served its purpose admirably during the family gathered here to enjoy the shade and to catch the passing breeze.

But today when automobiles are a common family possession the members of the household prefer to jump into the car and go for a nice long ride when they endeavor to cool themselves. The big porch does not serve its usefulness of gone by years and is often deserted.

Deep Porches Losing Favor

Times have changed and the porch in the opinion of many builders will soon be classified as obsolete.

During the cooler months of the year the family remain indoors and again the big porch is not used. It remains idle gathering stray leaves and flying dust—is always in constant need of cleaning.

Deep porches have another objection. Their broad roof casts deep shadows within the house making the rooms off the porch dark and gloomy.

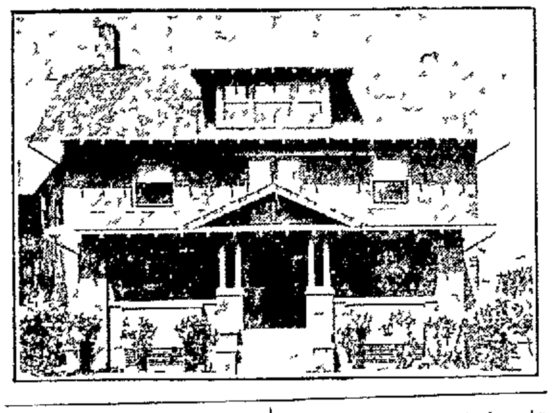
When the owner of this handsome brick veneer house decided to improve his property his first thought was to the porch. It was rapidly becoming useless and in his judgement a liability rather than an asset. So it was discarded in favor of the porch shown in the large illustration at the left.

New Porch a Delightful Touch

This new porch gives the residence a delightful touch. The heavy spirit is gone. A new sense of welcome radiates from the snowy white p[illars] the semi circular steps and the colonial door.

The grilled railing over the [porch] and across the sills of the two [front] windows at the front add a [touch of] distinction to the facade.

Overhead the wide dormer w[ith] three windows has been remo[ved] leaving the roof lines plain. The roof now has a clear sweep and course of the eye as it glances this part of the structure is [un]impeded by extraneous lines.



Net assessed valuation of [th]e [Territory] of Hawaii is $45 100 000.

The snake bite doctor still [has a] place in the copperhead [and] swamp regions of coastal Car[olina].

Vestibule Still Important and Useful Part of Modern Homes

In recent years there has been a tendency to eliminate the vestibule in the home. But the vestibule is a convenience of real practical utility that should not be overlooked. One should be included if possible.

Here may be stored overshoes raincoats the umbrellas that are necessities during a part of the year. The vestibule saves the tracking of dirt into the interior—common practice if no place is provided for storage of rubbers and overshoes.

The vestibule should be more than a double entry. Some of the newly modernized homes are making the vestibule large enough to contain a low built in hall seat with a hinged top opening on a convenient receptacle for holding the rubbers overshoes and all the incidentals that might be stored in an entryway.

An umbrella stand a wire hall mat and a row of books upon which hats and coats may be hung complete the vestibule.

VALUE OF CRAWFORD COUNTY LAND DROPS

Recorder's Annual Report Shows 830 Realty Transfers in Year.

Special To The Star

BUCYRUS July 28—A total of 830 real estate transfers were made during the year ending June 30 1930 in Crawford county according to a report released today by County Recorder H O Sharp. Leases during the year totaled 121 representing a total of 45 051 acres.

The average price paid per acre for land this year was $7 5 lower than during the year 1928 29 last year's average being $90 47 as compared with $83 61 this year.

Seven hundred and forty six mortgages involving 9 047 acres of land were recorded and 515 mortgages representing 5 0_0 acres were cancelled.

SHERIFF SELLS LAND

KENTON July 28—A farm of seven acres in Roundhead township appraised at $500 was sold at sheriff's sale through the suit of the Kenton Savings Bank and Trust Co against Will Nichols and others. Purchaser of the tract was the bank and the purchase price was $334.

Couple Wed at Galion Parsonage Saturday

GALION July 28—Mrs Bessie Hurt of Galion became the bride of Lee O Miller also of this city Saturday morning at the home of Rev J B Shumaker. Mr and Mrs Otis Parks witnessed the marriage following which a wedding dinner was served at the home of Mr and Mrs Parks.

Before her marriage Mrs Miller was employed at the North Electric Mfg Co here. Mr Miller is employed with the Erie Railroad Co at the freight house here. The happy couple will reside at 121 West Parson street.

CONDUCT UNION SERVICES

GALION July 28—Union services were held for the Galion churches at the United Brethren church last night. Rev J I Fink pastor of the Market Street Methodist church delivered an inspiring sermon on the subject Stephen and Enemies of Christ.

GAS BOTTLED

Home Owner Beyond Reach of Mains May Enjoy Utility

The man with a home beyond the gas mains may now have such city comforts as gas for cooking purposes for he can now purchase gas in bottled form.

The gas receptables are inserted in the gas line which leads to the fixtures a full bottle replacing the empty one when the supply is exhausted. Empty bottles are returned to the central filling station for recharging.

Waxing Regarded Best Wood Floor Treatment

Floors have emerged from beneath the florid and floral carpets of the gay nineties. Unhidden in the smartest homes the hardwood floors gleam with a soft mellow lustre imparting tone and richness to every room.

The use of wax on hardwood is considered by many housewives to be the most practicable method of treating the wood. Waxed floors remain free from scars and scuffs as though completely covered. The wax forms a tough flexible film that clings to the hardwood and rebuffs dirt and grime.

SELL DITCH JOB

KENTON July 28—Sale of Jim Creek ditch in Dudley township was made by Surveyor Pearl M Gebert who awarded Section No 1 tile to the Elite Tile Co on its bid of $121. Estimated cost was $128 10. Gramlich and Son of Kenton was awarded the pipe contract estimated at $13 95 at the estimate and Everett Hare was given the excavation section on his bid of $83. Estimated cost of excavating was $93.

Chautauqua Closes with Presentation of "Pigs"

Annual Season of Entertainment Called Successful; Ticket Pledges for Next Year Asked by Board, Jubilee Singers and Lecturer Appear on Sunday Program.

Programs of spirituals and camp meeting melodies by the Carolina Jubilee Singers and two addresses by John A Holmes made up the program Sunday at the Chautauqua. Tonight's program which will be the presentation of "Pigs" by the Salisbury Players will bring to a close a successful season of Chautauqua entertainment which was enjoyed by a large patronage. Saturday's program included music by the Philharmonic ensemble and entertainment by John B Ratto, impersonator.

Sunday's audience was one of the largest in attendance at the five day session and during the afternoon and evening programs a large number of pledges were signed for the support of next year's Chautauqua. Officers will be elected at the business session to be held at the closing session tonight. The Junior Chautauqua closed today with a session this morning followed by a tour of the city and a silent program.

Talks on Culture

"Is Culture Worth While" and "The Epic of the Middle Aged Man" were topics discussed by Mr Holmes in his addresses Sunday. The development of the powers of the head and the development of appreciation are products of culture the speaker stated. The present affords every opportunity to develop culture Mr Holmes pointed out. Results of culture come slowly and he who would get culture must first find patience he stated.

The decade most prolific in human achievements is the one between 50 and 60 Mr Holmes declared in his address last night. The happiness of a man in middle life depends on his sense of responsibility he stated. "The middle aged man is the force that is moving the world. He is doing things and where he sits there is the head of the table." Mr Holmes referred to the middle aged man as a modern Atlas carrying the peak of the load of life. He cited the age as one when a man loves to be called into conference and loves to be asked questions from his vast fund of information. The world would be lost without the middle aged man the speaker declared for it is on him the world depends for information and judgment.

Jubilee Singers Entertain

The Carolina Jubilee singers entertained with two of the most delightful musical programs of the session. Their interpretations were presented with a background of the Old South and the portrayal of their thorough knowledge of the music. Their presentations ranged from the early Negro spirituals to the modern numbers of "Old Man River" "She's My Mammy" and "Goin Home." They responded generously to encores in their solo and group presentations.

Their repertoire included "Hear Dem Bells" "Who Do You Call the King Emanuel" "Dem Golden Slippers" "Old Black Joe" and many other favorites. The program last night closed with a costume presentation of plantation songs.

Members of the company are James A Shaver manager; Furado Jango first tenor; Miss Jamesanna Weathers soprano; Miss Ernestine Lyle contralto; Miss Esther Gaskin pianist; Leon McRay baritone and John Logan bass.

TARIFF ISSUE TODAY AS CANADIANS VOTE

Conservatives, Seeking To Unseat Liberals, Favor Retaliation Against U S

By The Associated Press

OTTAWA, July 28—After a lively 58-day campaign Canada's 4,000,000 voters cast ballots today in the dominion's seventeenth general election for the 245 members of the next house of commons.

Seeking to add at least 34 to their 90 seats in the house in an effort to oust the Liberals who have held sway for 12 years the Conservatives have emphasized the issues of the tariff and unemployment. Led by R B Bennett the Conservative party has demanded a high tariff as a measure of retaliation against the new United States tariff.

Premier W L Mackenzie King, Liberal has urged the importance of imperial trade preference as embodied in the budget of Finance Minister Dunning. The main object of the government's trade policy, he said in his final campaign address is extension of trade within the British empire and widening British trade preference. The budget recently increased tariffs on goods from the United States to the extent of the United States tariff on similar goods from Canada.

MARION GIRL, NINE, DIES AT PANA, ILL.

Hazel Marie Gorrell Claimed While on Visit, Younger Brother Seriously Ill

Impure water is believed to have developed diphtheria which claimed the life of Hazel Marie Gorrell 9 daughter of Mr and Mrs Charles Gorrell of 855 Patten street Sunday at 7 30 p m at Pana Ill.

The girl and her brother Buddy 7 with their mother were visiting Mrs Gorrell's brother at Pana. Buddy is critically ill of the disease according to the physician.

Mr Gorrell took his wife and children to Pana about a week ago and left Buddy and Hazel there. Ernest and Alton returned home with their father.

Last week the report of their critical condition was received here. Late in the week the reports stated that both children were improving.

Mr Gorrell Alton and Earnest left last night for Pana. Funeral arrangements have not been made. It is believed that it will be necessary to make the interment in Pana.

STREET EXPLODES

Excessive heat was given as the cause of an explosion Saturday which wrecked a portion of the pavement of Summit street near Mt Vernon avenue. Workmen are busy today repairing the damage. This is the third street that has blown up in the city this summer due to the heat.

12 POUNDER

Baby Born Here Claims Unusual Distinction as to Size

SIZE meant a lot when Mr and Mrs Roy C Halley of 452 Silver street named their children. Their new son who weighed 12 pounds when he was born Friday afternoon has been named Jack Francis Halley after the sheriff of Marion county.

Jack Francis Halley has an older brother six years old who weighed four pounds at birth. This tiny mite was named Calvin Coolidge Halley after the slight but mighty former president.

The Marion Academy of Medicine has been attracted to the case of Jack Francis Halley.

RICHWOOD SWAMPS SPRINGFIELD TEAM

Byhalia and Morral Break Even in Twin Bill, 6-4, 7-4

Richwood swamped the Earl Clothiers of Springfield yesterday by a score of 13 to 8. Jimmy Marshall of Marion led the home team's hitting attack by bingling safely four times in five trips to the plate. De Long's hitting featured for Springfield.

The score by innings:

Springfield	012 020 021—	8	11	2
Richwood	112 300 51x—	13	17	1

Hickman and Sharr; Maugey and Johnson.

* * *

Morral and Byhalia split even in a tri-county league double header played yesterday on the latter's diamond. Morral won the opener 6 to 4 in an eleven innings while Byhalia copped the seven inning nightcap 7 to 4.

The scores:

Morral	100 010 110 02—	6	7	
Byhalia	010 201 000 00—	4	8	

* * *

Morral	000 103 0—	4	5	
Byhalia	420 001 x—	7	14	

STORE LOOTED

The L M Smith store at 617 Silver street was reported to police today to have been broken into and burglarized last night. Loot obtained included eight cartons of cigarettes two boxes of cheese one dozen eggs one pair of overalls and one jacket. The estimated value of the stolen goods is about $10.

CAR ABANDONED

O H Neimeyer of Prospect O reported to Marion police yesterday that someone had abandoned a Whippet sedan near his home. Neimeyer said the car bore Ohio license 401 351 in front and Ohio license 721 370 in rear.

Every family has a son or daughter who wisely decides his or her own course and the family learns not to interfere.

AWAITING HEIR

Tremendous public interest attaches to the visit of H R H the Duchess of York (above) to her Scottish homelands where she will await the second visit of the stork. If the child is a boy the status of the little Princess Elizabeth daughter of the Duke and Duchess of York will be materially altered since she is now in direct line of succession.

Police Hold Man After Alleged Family Quarrel

George Miller of Reed avenue was arrested by local police yesterday following an alleged domestic quarrel in his home. Miller is said by police to have engaged in a quarrel with his wife after which he armed himself with a shot gun and fled to a nearby field. Police found him in the field and lodged him in city prison to answer a charge of disorderly conduct.

A woman living near New Orleans has a seven foot alligator for a pet.

Abnormal Eye Conditions

Are so prevalent that he is a fortunate person who escapes them all. Much good would result if every person who has NOT had his eyes examined would remain no longer in doubt about them. And the truth is that in practically every case glasses would be needed. Always at your service

Daily Proverb—"The world is a great book of which they that never stir from home read only a page."

Chardon reports full-sized deer roaming about up there. A few weeks ago an ape was seen in that vicinity. What's the answer? Is somebody stocking up that section for a zoo?

Under the circumstances, it's hard to see how President Hoover can do less than fire the social secretary who wore the wrong kind of trousers. The country will never stand for such a sartorial solecism as that.

A sneak thief entered the hotel suite occupied by Portes Gil, former president of Mexico, who is a visitor in Havana, and stole $4,500 from a pocket in his trousers. Nobody ever heard of a hard-working spreader of joy and sunshine in paragraphs going to sleep with $4,500 in his trousers.

The British budget bill calls for expenditures of $4,000,000,000, from which it may be gleaned that it is not alone in the United States that the cost of government is heavy, and steadily mounting.

The winner of the Indianapolis Memorial day automobile classic has been sued for $50,000 damages for alleged breach of promise by a former checkroom girl in Chicago. It's the exceptional cash prize winner, these days, who is able to pull down his winnings without somebody making claim to the big end of them.

The two youths who disobeyed the rules by smuggling two girls into the mess hall at Annapolis have been dismissed from the academy. Youths who can not take and obey orders would hardly have grown into the right kind of timber either to execute orders or to give them.

A Summer Food Budget.

The American Research foundation has issued a summer food budget, based on current prices, showing how a family of four may eat well this summer on an average expenditure of $13.72 a week. This amount, it holds, will provide the four "with all the nutritious elements necessary to their physical well-being and yield intriguing menus." The foundation goes on to say that "many staples are from twenty to forty per cent. below the 1929 level, while fresh fruits and vegetables offer chances to trim tidy sums off the food budget."

The budget sets aside $1.32 for vegetables, including cabbage, potatoes, tomatoes, spinach, radishes, beans, peas, celery, asparagus and onions.

Seventy-eight cents are to be expended for fruits, including peaches, apples, pineapples, rhubarb and dried apricots.

For meats, $2.77 is the appropriation. The meats include pork, bacon, lamb chops, ham and beef. The sum of fifty cents is to go for margarine. Canned goods, including soups, tuna fish, figs, salmon and grapefruit take $1.36 more, and dairy products—cream, milk and eggs—are to take $3.50.

For the staples—bread, tea, coffee, cocoa, flour, rice, cereals, gelatine and cheese—the budget sets off $3.28.

These figures, it may be noted, total $13.51, which leaves a balance from the $13.72 budget of twenty-one cents, which may be expended for sugar, pepper and salt, spices and the like.

There is something fascinating about such food budgets as this one. They possess an element of certainty and sureness which is captivating. The possibility that they may not work out in practice as they do in theory, never seems to have been given consideration. "There you are," the research people as good as say; "we have figured the thing out for you and saved you all the trouble and annoyance of budgeting your food bill. All you have to do is to go ahead and buy the foodstuffs in the quantities necessary and at the prices set out, and the thing is done."

Now there is no question but what, under quantity production, a man may be sustained and kept in health at an expenditure of seventy cents a week. There is notable authority for the statement that people, by quantity purchasing and preparation, can be sustained at a cost of five cents each a day. Mr. Hoover did that, when he fed the starving of Europe, and kept them in better physical condition than those who lived on luxurious fare at same time. This is understandable, but it is somewhat difficult to vision the purchase of a week's supply of fruits for four at present-day prices for seventy-eight cents, or a like supply of pork, bacon, lamb chops, ham and beef for $2.77. Granted that it can be done, such foods will have to be spread out mighty thinly. It would be interesting to know how many of the people who figure out these budgets for four feast on "intriguing menus" provided at at per capita cost of $3.42 a week.

Another Alien View of America.

Andre Geraud, the "Pertinax" of the Echo de Paris, who recently caused quite a little comment by his speeches in this country, told the members of the American club in Paris whose luncheon guest he was at the time that what is wrong with America is that those who visit it always find it different from what they had been led to expect and from what every one else found it to be. Even Americans themselves, he said, are constantly misrepresenting their country, and he begged the members of the club to avoid the pitfalls of sentimental misrepresentation of the realities of American opinion.

The comment to which reference has been made was based on the fact that M. Geraud was inclined to give rather more gratuitous advice to America and Americans than was considered becoming on the part of a visitor, but no matter what his offense, if any, in that regard, his Paris luncheon address, made plain that he was a far closer student of America, Americans, American thought and American ways than most of those who visit us from across the Atlantic.

"Whenever one gets away from the American seaboard," Mr. Geraud told his hearers, "one finds that the mass of your people is proud of American isolation and does not want to be drawn out of it. It is not wise to blind one's self to that fact, and it would not be wise to try to force America into any sort of cooperation. For your cooperation would be given only on such conditions as we in Europe could not accept." In all of which he is eminently correct, both as to the facts set out and the conclusions drawn therefrom.

And then, in absolute opposition to the views of Georges Duhamel, the French writer, whose recently-published book depicts in overdrawn manner what the author refers to as the "mechanicalism of American life," M. Geraud paid this tribute to America and Americans:

"I disagree with that view entirely. In America I was constantly struck by the powerful impulse of American life, and by its ebb and flow. If there is a certain lack in the variety and diversity of human experience, it is simply the outcome of youth. There is far more flexibility in your fate than most people anticipate. And there is great beauty in your country. In those rising towers of New York and Chicago there is beauty. Whenever I moved among your young people at Princeton and elsewhere, I felt beauty. The flower of young America can be well compared to the flower of young England."

Finding American opinion what he did away from the seaboard, and realizing that it is away from the seaboard that the real bone and sinew of American life is to be found, M. Geraud recognized the fact that, for the present at least, Europe could not expect America to make any commitments which might entangle it in European affairs, but yet he felt that Europe could justly make one request—that this country should take a definite position on the question of the freedom of the seas.

In this view, did he but know it, there are millions of Americans who are in absolute agreement with this French newspaper writer, believing that such a course is not only a duty which America owes to Europe and the world, but a duty as well which this country owes to itself.

Dredges being operated in the Mississippi at St. Paul are scooping cakes of ice weighing from fifty to 300 pounds from the river bottom, says a dispatch from the Saintly City. Looks as though St. Paul is propagandizing as a summer resort.

Tens of thousands of workers are on strike in France to show that organized labor over there is against the government's social insurance plan under which four per cent. of their earnings is deducted from their pay as their contribution to the insurance fund. It's something of a coincidence that the same plan is being proffered over here at present to carry workers over seasons of unemployment.

Assistant Secretary of the Treasury Lowman has barred Russian paper pulp wood from this country, having discovered that it is manufactured by convict labor, such products being forbidden entry by the new tariff act. The ruling is liable to interfere seriously with the plans of the paper company which contracted for a great supply of Russian pulp, but that's the chance every concern dealing with soviet Russia is due to run.

The first decree signed by President von Hindenburg under the German dictatorship was one banning the carrying of weapons of any kind at political gatherings under penalty of three months' imprisonment. The Germans must take their politics a lot more seriously than we do over here.

The police were called to the Broussard home in Portland, Oregon, to protect the young hopeful of the house, who had used a forbidden word, from the assaults of the father. When they found the youth to be fifty-seven and the parent to be ninety-six, they absolutely refused to oppose their judgment regarding the proper way in which to bring up a boy to that of the outraged father.

The remains of a dinosaur recently dug up by a museum party in the Tanganyika district of South Africa measures seventy-five feet from the tip of the nose on the twenty-five-foot neck to the tip of the tail, the shoulders having been twenty feet high and the hind quarters twelve. Our ancestors of early times must have had some decidedly striking household pets.

Roy Chapman Andrews, noted American explorer, reports from Peiping, China, that he has discovered the fossilized remains of between twenty-five and thirty great shovel-toothed mastodons with six-foot jaws, in a dried-up bog near the Mongolian border, which he figures roamed Mongolia 3,000,000 years ago. The fossil market is liable to develop a bear movement if Mr. Andrews keeps nosing around over there very long.

THE SPHINX SPEAKS.

From Our Readers.

BOOST HIGH WAGES.

Editor Star—Upon my visit to Marion the last few days, my attention has been called to a communication in your paper under the heading of "From Our Readers" and signed by "J. B. Bolander" and which has called for considerable comment among your readers. May I have the privilege through your paper of asking this writer if this letter was written in pure ignorance or if he has honestly expressed his views?

First, he quotes the scale of wages of organized labor in the building trades as too high. Then he offers to paint houses for one-half of the painters' scale. May I ask if he is any better qualified to paint a house than he is to write a communication? His letter is pure ignorance, and I would be willing to gamble that his painting would look like the morning after Hallowe'en.

Second, I would like to ask him if he purchased his twenty or twenty-five thousand dollar home out of his savings of twenty or twenty-five cents per hour that he is so proud of. If so, he is certainly old enough to know better than to write such a letter.

Third, I would like to ask him if he will work, honestly and industrially in selling the real estate for twenty-five cents per hour? Is honest industry a joke? Why, I am frank in saying to the public, that this writer would not sell a property for a client without proper compensation on a percentage basis.

As a representative of organized labor, I stand for high wages for the laboring people. Show me a locality that pays high wages and I will show you a prosperous one. Do we want poorhouses? Do we want bread lines? I say no. Take New York City from my home state, why even the old timer in the white suit, cleaning the streets gets his eight-seven cents per hour. The building trades receive high wages, but they earn them. They will build an eighty-story building, cutting the foundation out of solid rock and complete it while your cheap wage-earners are digging a cellar out of sand. Ask any New Yorker how many paupers they have from the city of New York and compare them with your own city.

I am firmly convinced after reading this communication that the reason of the low wages paid around Marion, your business conditions in general around Marion, is largely due to such damnable propaganda as expressed in this letter.

In conclusion, I wish to say "Boost Wages, Boost Business and Boost Your City!" Make it a locality where poor farms are unknown and even the laboring people are comfortable and happy.

Sincerely yours for high wages and better business, I am

John A. Marvin,
General Chairman Erie Boilermakers.

Editorial Opinion.

BORAH; THE SENATE'S IRREPRESSIBLE.

Senator William E. Borah, it seems, is preparing for the fall campaign. Always a disturber, always an agitator, always running away on his own hook, the senate's irrepressible cut-up is intending to take the political stump against the administration's farm relief measure and the policies of the federal farm board. Despite the fact that the board has proved that the purchase of nearly 70,000,000 bushels of wheat failed to stabilize prices, Borah is still unconvinced that the law of supply and demand is inexorable. He was—and still is—for debentures and most of the other wild theories that political farm leaders have been advocating.

A brilliant mind is that possessed by this gentleman from Idaho. A great pity it is that he can not turn it into more sensible channels than he so frequently chooses. The farm board has a tremendous task on its hands. Before it can determine upon a settled line of action it must need enter the field of investigation, exploration, adventure and experimentation. It has learned one thing—that taking a quantity of wheat out of the market by what amounts to government purchase and storing it is not practical. It has burned its fingers with one important experiment of that sort and isn't hankering to suffer again in the same way. It must have time to conduct its inquiries, formulate its plans and advise the wheat growers. Its greatest foe is not the individual farmer, but the political agitator claiming to represent agricultural interests.

Senator Borah at times becomes very mischievous. This is one of those times. — Philadelphia Inquirer.

An Open Question.

There are now twelve millionaires in the United States senate. Whether or not they will be millionaires after they have been through another primary and another election is doubtful if recent figures are any criteria.—New York Post.

The Word of God.

And above all these things put on charity, which is the bond of perfectness.—Col. 3:14.

Prayer—"To Thee, from whom we derive our life, our gifts, our power to give; O may we ever with Thee live Who givest all."

"Tone Up" the System.

BY ROYAL S. COPELAND, M. D.

Are you one of these unfortunate persons who suffer from seasickness? Do you miss out on the pleasure of any trip you make because of the disagreeable symptoms from which you suffer?

Seasickness is rather common. Some persons experience the same sensations while riding on a train or car, in an elevator, or on a merry-go-round.

Nausea and vomiting are the most marked of the symptoms. Headache is common. Abnormal increase of appetite may be the first sign, though loss of appetite is more usual. Often there is pain in the back of the neck, sometimes soreness of the back and pains in the arms and legs. Flushes of heat and chilliness are sometimes complained of by sensitive persons. The sufferer falls into a state of despondency and even despair.

Many theories are held as to the cause of seasickness. Age seems to have some influence as very young children are seldom affected. It is odd that the lower animals differ in their reactions: dogs, horses, cows, sheep and chickens have been affected, but hogs, ducks and geese, as a rule, do not suffer.

Probably most cases of seasickness are aggravated by the fatigue of the traveler, by excitement, improper diet, and by constipation. It may be brought on by disturbance of the vision, due to constant motion of the surroundings. But the opinion is commonly held that seasickness is caused by irritation of the "semi-circular canals," parts of the ear.

The semi-circular canals are hollow tubes associated with the hearing apparatus. They function in the same way as does a spirit level. No matter in what direction the head is turned or tilted, the brain receives the news by the movements of the fluid in these canals. On shipboard your head bobs and jerks about, and the semi-circular canals go on the warpath. Then you become sick and dizzy.

To avoid trouble, it is advisable to take certain precautions in advance of sailing. You should be as rested as possible. Be sure the intestinal canal is cleared out and avoid constipation while on board.

If you are especially susceptible to seasickness, go to bed immediately. If you are able to stay up, spend the greater part of the time on deck, lying quietly in a chair, with the head steady against the chair back.

For the first day or two take light, easily-digested food. Avoid excessive drinking of liquids.

There are a number of remedies of more or less value in preventing seasickness. Your doctor will advise you about this.

ANSWERS TO HEALTH QUERIES

MRS. A. J. D. Q—Would a blow on the forehead cause boils? Would too much candy be apt to cause these disturbances?

A—No. It is more than likely that the excessive sweets are responsible for these blemishes Correct the diet and keep the system clear.

* * *

P. S. T. Q—What causes dizziness when I rise?

A—Dizziness may be due to a circulatory disturbance, to an eye or ear condition, or to some intestinal disturbance. An examination will determine the exact cause and then definite treatment can be prescribed.—Copyright, 1930, Newspaper Feature Service, Inc.

* * *

L. F. Q—What causes headaches?

2—What do you advise for falling hair?

A—The common cause of headaches are eye strain, infected teeth, tonsils and sinuses, constipation, indigestion, auto-intoxication, high blood pressure, kidney conditions or catarrh.

2—I would suggest shampooing every week with a good pure soap and warm water and the use of a stimulating ointment.

* * *

B. W. Q—Is it advisable to take mild laxatives or other medication continually?

2—What diet would you suggest in the case of a woman of forty-nine years of age suffering with high blood pressure?

A—It is never wise to take medication of any kind over a length of time unless such medication has been prescribed for your particular case.

2—As a rule red meats, eggs and excessive salt are prohibited. Each case is different, however, and should have specific advice and attention.

* * *

B. M. J. Q—What causes the finger nails and lips to turn blue?

2—What can be used to purify the blood?

A—This may be due to heart trouble. Have an examination so that definite advice may be outlined.

2—If the general health is good it will not be necessary to take any thing to clear the blood. For full particulars send a self-addressed, stamped envelope and repeat your question.

* * *

Dr. Copeland will answer for readers of this paper, questions on medicinal, hygienic and sanitation subjects that are of general interest. Where the subject of a letter is such that it can not be published in this column, Dr. Copeland will, when the question is a proper one, write you personally if a self-addressed, stamped envelope is enclosed. Address all inquiries to Dr. Royal S. Copeland, in care of this paper.

City of Antwerp.

BY O. O. M'INTYRE.

Antwerp, July 28—I wish the home office would permit me to linger in this Belgian city of 300,000 awhile instead of annoying me with childish cables I'm overdrawn. The overworked word quaint describes it. The birthplace of Flemish paintings, it is the home of Rubens and his illustrious students, Van Dyck and Jordans.

The public square in which a heroic statue of Rubens is flung up faces happily the entrance of the gaunt grey cathedral where hangs his most famous picture, "Erection de la Croix." But a greater interest for me was its port. I counted 300 craft in the harbor. Thirty ships arrive and thirty depart daily.

In a moment of adventure we selected a modest pension hotel on the turbulent water front—a mean-looking inn with a red-nosed maid named Josephine and a pock-marked waiter named Napoleon. Narrow sidewalks are clogged with Arabs, Somalis, Flemings—big-chested men with rolling gaits whose constant jabber in alien tongues is harsh and emphatic.

Nearly all Antwerpians speak four languages—German, Dutch, French, English. French, however, predominates. Next to shipping, diamond cutting is the main industry. A big district, like Wall Street, is given over to the delicate art, with a Diamond exchange, comparable to our Stock exchange, in its center.

I saw one diamond weighing seventy-two karats. Indeed I held it in my hand, there being no windows in the room and the door locked. Some 40,000 workers, mostly Polish, are engaged in the work, and about ninety per cent. of the world's diamond cutting is done in the area. Oddly enough it is not a highly-paid profession.

Another feature of the city is its beautifully-formed Flemish dray horses. Carters here, on account of the immense ship hauling, are specialists. They form an immense guild, divided into classes. Each class hauls only certain articles on the low-hung wagons. One of the impressive buildings is their clubhouse.

The magnificent animals are closely combed, with only a fan-shipped nubbin for a tail. They are powerful Percherons with gingerbready brass ornaments. Manes are flecked with ribbon bows and hoofs are lacquered. Drivers use but a single line attached to a plush padded halter, and never use a whip.

* * *

In an ancient Antwerp square is a bronze of Quinten Matsey, once a blacksmith, who is idealized by all Belgians. He became a great painter in order to win the hand of the daughter of a painter who had objected to his prosaic calling.

* * *

There is another statue, a huge bronze, of an American Indian with breech clout, feathered head-dress and poised spear. I learned the Belgians originally lived in tribal fashion and this was one of the famous warrior chiefs.

* * *

In middle ages Antwerp and Amsterdam merchants were commercial princes of the Old world. Descendants have upheld the tradition. Some of New York's early and most successful merchants migrated from Antwerp. Its cosmopolitanism is displayed in the variety of its architecture. I saw a complete modernistic house. Its front was of black onyx and its doorway and windows of white marble. Its surrounding hedge was cut in sharp angles, its terraced lawn was in the mode and the door knob was the rich azure blue of lapis lazuli.

* * *

Antwerp had a big civic ruckus over its first skyscraper, now shooting up to twenty-five stories, the tallest building incidentally on this side of the Atlantic. The town divided into factions, families quit speaking and there were three exciting street clashes. But the Woolworthians won and they have reached the eighteenth story.

* * *

Across the narrow street running alongside this hotel is a dingy groggery, patronized by seamen. A horrible scraping gramophone is grinding out "Happy Days Are Here Again" while parakeets swaying from the ceiling chatter. I just peeked out my window into it and saw husky dock wallopers dancing about on a sanded floor. All members of my troupe are at the world exhibition on the other side of town—an exhibition at which America, by the way, is not represented. Every now and then the door to my room in this barn-like inn suddenly squeaks and slowly opens—and no one is there. The dog is acting strangely, jumping out of a sound nap at intervals with a bristling back to circle about with menacing growls. And if something isn't breathing heavily under the bed I'm a cock-eyed liar. The way I feel right now this is probably the last article from me.

* * *

If I survive the night in this loose-windowed and hinge-creaking inn I intend to rush out in the morning and cable my friend, Albert Keller, of the New York Ritz, as follows: "For reasons best known to myself, love and kisses" — Copyright, 1930, McNaught Syndicate, Inc.

The Radio Eye.

BY ARCHIBALD HENDERSON.

Guglielmo Marconi, electrical wizard sane prophet of the coming era of scien conquest, predicts that progress in radio velopment will go forward with unimp speed in the future. Television has partly perfected for short distances of a miles; but the time will soon be here, cont thinks, when it will be possible to from New York to Rome, and at the s time for the conversers to see each othe they talk. The scientific apparatus has ready been fairly well developed; all tha required is the achievement of exception good transmission conditions.

An extraordinary development of r and aviation working in conjunction is marvelous device known as the radio- This invention has been made by C. Fra Jenkins, and also by John Hays Hamm Jr. The airplane is equipped with an ey an eye that will not only see, but will br cast for hundreds of miles all that it s In Jenkin's invention, the television sen apparatus, which picks up and transmits scenes before it, is placed in the fuse of the airplane.

Pictures, like sound, are transformed waves of current which travel on until reach the receiving station. There they changed back into pictures. The sending chine transmits the radio waves control the flickering of a tiny electric lamp, e gized by radio, at the receiving station. lamp throws upon a mirror a dot of li which, zigzagging back and forth, makes the mirror a complete picture in less t one-sixteenth of a second.

It is the speed at which the dot of l zigzags across the mirror which enables view to be glimpsed as a picture. The e is that of a movie—a succession of pict the making of each one requiring less t one-sixteenth of a second.

The value of the radio-eye is obviou a glance. A general of an army, say, wi to have, at a given time, an exact pictur the enemy's fortifications; troops, su trains, gun emplacements, trench defense The aerial eye in the army plane soa over the enemy's territory looks down u them, reconnoiters, locates a Big Ber takes note of a long line of reinforcem coming up from the rear. Having take all this, the aerial eye transmits its find instantaneously.

By means of giant aerial towers at h quarters, the general of the army picks the waves coming through air from the plane, transmits them to the receiving se the headquarters office, and the scenes instantaneously flashed upon a specially trived mirror scene. The general of army, scrutinizing the mirror, spots all salient features of the enemy's fortificat and the disposition of his forces. At onc issues the necessary orders for a scien training of his own guns upon the ener fortifications, and the requisite counter m ments of his own forces. It is not hazard and uncertain information, a sor higher guesswork.

It is fact, reality, scientifically obtai scientifically recorded.—Copyright, 1930, ternational Feature Service, Inc.

It Isn't Sparing Anybody.

The golf bug is said to have wrought ravages in some parts of the gardening cou than almost any other pest. It attacks the gar ers. And usually just at the time when the needs hoeing.—Savannah News.

The Way of the World.

BY GROVE PATTERSON.

Who says men are the savers and wo the spenders? The city of Manchester, land, borrows millions from its citizens bonds. Figures show that almost exa half of those who loaned money to the last year were women. And you don't to go to England to find out that a lo men who get credit for thrift and good agement wouldn't have money for a s wich if it were not for the economy of wives.

* * *

Don't let the prohibition issue take mind off the value of a well-known d called water. If you are a grown-up son you should drink from six to eight gla daily. Drink one glass, not too cold, w you first get up. Bundesen, formerly he commissioner of Chicago, used to say w should be taken in three ways: intern externally, eternally.

* * *

Song singers and others think college is largely made up of romance, beer and s nades. Students in Heidelberg univers Germany, were recently asked to take par a talking picture of university life. A they read the scenario they refused to h anything to do with the pictures. They the producer evidently believed their time devoted to drinking and playing games. occurred to the students there were s things as examinations. Commenting, Christian Science Monitor says:

"This 'jazz' tendency of the college fil the more regrettable because the talkies h a unique opportunity of making a constr tive contact between the general public the experiences of university men and men. They have practically no competit to face. With rare exceptions, neither novel nor the drama has dealt at all quately with this particular phase of e ence. College life, therefore, offers a c lenge that an enterprising producer m well take up seriously."

Farewell Party Given By Club

The U. N. O. club and friends met at the home of Mr. and Mrs. George Lower of Merkle avenue to give them a farewell party. Mr. and Mrs. Lower are moving to a farm near LaRue soon. The party went with baskets for a picnic lunch. A gift was presented to the honored guests.

Those present were Mr. and Mrs. David Fritz, Mrs. Maisin Shirk, Mr. and Mrs. Christ Bauer, Mr. and Mrs. M. L. Bechtel and son, Mrs. Mary Murphy, Mr. Bausman, Mrs. W. H. Puessler, Mr. and Mrs. Claude VanHorn, Birdie VanHorn, Miss Martha Brady, Mrs. Jessie Arndt, Mr. and Mrs. Clifford Lindsey, Clarence Virdon, Mr. and Mrs. Augustus Melvin and children, Mrs. Harry Lewis and son and Mrs. Garnet Sharp and daughter.

Games and contests were enjoyed, high honors going to Mrs. Shirk and Clarence Virdin. Mrs. Puessler and Mr. Bauer were consoled. Music was enjoyed.

RIVER BOAT SINKS

By The Associated Press

GALLIPOLIS, O., July 28—The steamer Julius Fleishman, coal towboat owned by the Hatfield, Campbell Creek Coal Co., was at the bottom of the Kanawha river today, after sinking in eight feet of water here when it hit an obstruction. It was valued by its owners at $100,000.

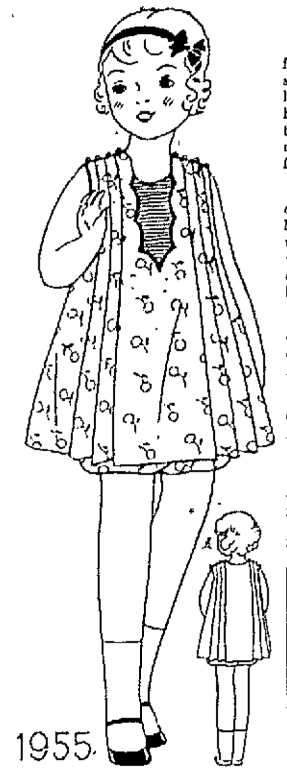
Practical and Simple

Dainty Warm Weather Frock



1955

Pattern 1955

Isn't this sleeveless frock lovely for the small girl? It fastens on the shoulders with small buttons and loops, making it easy to slip over the head. A dainty, tucked vestee fits the scalloped opening in chic manner, and side pleats afford ample freedom for motion.

Pattern 1955 will be practical made of printed cotton . . . pique, percale, broadcloth, shantung, etc. The vestee uses lawn or batiste which, by the way, may be purchased quite inexpensively already tucked. There are bloomers, too.

May be ordered only in sizes 2, 4, 6 and 8. Size 4 requires 2¼ yards of 39 inch material and ¾ yard trimming.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instructions are given.

Send FIFTEEN CENTS (15c) in coins carefully wrapped, or stamps, for each pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE

COUPON

This pattern will be sent on receipt of 15 cents. Make number, name, address, etc. plain. Send to the pattern department THE MARION STAR BUREAU, Pattern Fashion Syndicate, Inc., 213 West 17th St., New York City.

in the world, lives surrounded by sewage.

Its health department tried vainly to prevent a swimming contest around the city, saying the contestants must swim with open mouths in water full of sewage, and many probably made ill.

The sewage could be piped to lands that need it or chemically eliminated, and the garbage could be burned. That will come.

We may not be descendants of the monkeys, but we are entirely unlike them.

PROFESSOR EINSTEIN is working on another theory, which according to an interviewer enters a field "more vast than any field explored by him hitherto."

As he has already explored the universe, the new field must be very big.

One Einstein theory that anybody can understand and approve is this: He says, "The most important work that the world has on hand is to improve the education of the young."

* * *

MISSIONARIES are fleeing from the interior of China, and the new Chinese authorities, blind and dead to their own chance for salvation, forbid any more teaching of Christianity in China's schools.

If the discouragement of China's missionaries should be permanent, many could find fields of spiritual labor here in the United States. The old hymn says, "'Way out upon the prairie, how many children dwell, that never read the Bible, or heard the Sabbath bell! That's true of big cities.

* * *

THIS COUNTRY is rich, but even a gold mine can be exhausted.

You realize partly what is wrong with us when you hear that the shipping board has cost the country thus far three billion six hundred and eighty-three million five hundred and sixty-nine thousand dollars. That's a good deal.

HORNET STING FATAL

By The Associated Press

MORRISTOWN, N. J., July 28—Stung in one thumb by a hornet while picking blueberries, Mrs. John Holt of Butler township is dead. The coroner found that the virus penetrated a vein and was carried to the heart. Death came in a few minutes

100,000 students under his direction.

The day's activities will include a picnic dinner at the noon hour and a program at 2 o'clock in the afternoon. Talks by the old students will feature the day and it is planned to have the old school songs and recitations repeated. It is requested that everyone bring old photographs of persons connected with the school.

The Bain schoolhouse was located on what is now known as the Albert Roux farm near DeCliff, and was a one-room frame building. It was torn down about 60 years ago.

Newspaper Space To Be Used Exclusively

By The Associated Press

NEW YORK, July 28—The Fox Theaters Corporation announces that henceforth it will advertise only in newspapers. Money heretofore used on other forms of advertising will be used for increased newspaper space. The reasons assigned are superior flexibility, ability to make last minute changes and digestion of newspaper advertisements at the convenience of the reader.

Galion Couple Married 60 Years; Celebrate Sunday

Special To The Star

GALION, July 28—Mr. and Mrs. J. H. Dunham celebrated their sixtieth wedding anniversary Sunday at their home, 245 South Market street. A family dinner was served at noon with places laid for 16.

Mr. and Mrs. Dunham were married 60 years ago yesterday in this city. Since their marriage they have resided in Mansfield, State College, Pa., Kent, and for the past seven years in Galion. Eight children were born to this union, five of them having passed away.

A son and daughter survive. They are: Mrs. Wayne Hart, Wooster; and Jay Dunham, Cleveland. Mr. and Mrs. Dunham have four great-grandchildren and five grandchildren.

Among those present Sunday were: Mr. and Mrs. Wayne Hart and two daughters of Wooster; Mr. and Mrs. Jay Dunham, Cleveland; Mr. and Mrs. Dunham Ruhl and daughter of Toledo, a grandson and great-granddaughter; a grandson, Gerald Davis and wife of Galion.

Many callers visited at the Dunham home during the day and many beautiful flowers and gifts were presented to Mr. and Mrs. Dunham.

Personal Mention

Mr. and Mrs. Warren Ballantine of Kokomo, Ind., were guests of friends in Marion, Saturday and Sunday.

* * *

She thought:
"I like you—*but not to dance with.*"
Yet, to be polite,
She said.
"It's so nice and cool here. Let's just sit and enjoy the breeze."

Girls made excuses to avoid dancing with him

—until he ended 'B.O.' (Body Odor)

THE HOT NIGHT was just an excuse. She *couldn't* tell him the real reason. It was far too personal. She couldn't bring herself to mention *body odor*, even by its polite nickname, "B.O."

Fortunately his uncle, a physician, was more frank. On from the West for a visit, the first in years, he soon sized up the situation—had a talk with his nephew . . . No more "B.O." now—no more polite snubs or unexplained business setbacks. He enjoys a warm welcome from friends—steady advancement in his work—since he learned the easy way to avoid offending.

"Warmer tomorrow"—beware "B.O."

Hot, sticky, perspiry days—sultry nights—no one is safe from "B.O." Don't think you are because *you* don't notice it. We seldom do *in ourselves*, because we so quickly become used to an ever-present odor. But others instantly notice it.

Why risk offending—ever? The remedy is so simple, so *sure*. Adopt Lifebuoy as your toilet soap. Enjoy its cooling, refreshing, antiseptic lather, so abundant even in hardest water. It washes away stickiness and fatigue—leaves you "fresh as a daisy", pores purified, every trace of "B.O." gone. Its pleasant, *extra-clean* scent—that vanishes as you rinse—tells you Lifebuoy *purifies*.

Watch complexions freshen

Lifebuoy promotes true complexion loveliness by letting the skin *breathe*. Its bland, *deep-cleansing* lather gently frees clogged pores of stifling impurities—brings back healthy, radiant freshness to dull, sallow skins. Adopt Lifebuoy today.
LEVER BROTHERS CO., *Cambridge, Mass.*

SHOVELS WIN OVER TOLEDO TEAM, 7-1

NUNEVILLER STILL ON CLOUTING RAMPAGE AS LOCALS END YEAR

Hack Richardson Pitches Masterful Ball Against Olds Motors Nine.

BY BOB ELLIOTT

Marion Steam Shovels brought their 1930 baseball season to a close by walloping the Toledo Oldsmobiles 7 to 1 behind a fine three hit performance by Hack Richardson yesterday at Lincoln Park. The victory partially avenged an early season 12 to 10 walloping the Toledo nine had handed the Shovels. The last game triumph enabled the "Diggers" to complete their season with eight games won and three lost. The defeats came at the hands of the Oldsmobiles and the Columbus Forrest Fowels the latter team winning twice.

Yesterday's tilt was featured by the sensational long distance clouting of Nuneviller, Marion's behemoth first sacker. It was back on June 20 when the Willard Stapf's Drugs were playing here that Nune overheard a fan say that the locals needed a home run hitter. He decided that something had better be done about that so he started his streak by hitting one that game. He continued doing so every game thereafter and kept it up yesterday to ring up No 6. In addition to the circuit clout he drove out two doubles and a single, scored twice and batted in another run. He hit safely in his first trips but on his last trial hit into a double play.

Wilgus In Form

"Putt" Wilgus new Marion second sacker, played a good defensive game starting one double play and handling four other chances without a bobble. The work of Bull Toledo shortstop, stood out for the visitors. The short fielder accepting seven out of eight chances. The 'Olds' used one of their hits to score their first run in the initial frame. After Parmalee had struck out Callahan was safe on Pine's error. V Marsh singled off Wilgus' glove Callahan taking third. Stearn's fly to Rowan scored Callahan.

Richardson had things his own way from then on although a twin killing helped him no little bit in the seventh. At that he had two on when he struck out F Marsh a pinch hitter for the third out. Only 28 men faced Richardson in the last eight innings. Klinger veteran Toledo hurler pitched a fair brand of ball but at no stage of the game was he the master of the hard hitting Shovels. Shoup started the attack with a homer in the second frame and Nuneviller's circuit clout in the third with Pine on scored two more.

The locals added No 4 in the sixth when Rizor was safe on Bull's error. Shoup hit to left and Rowan dumped a single into the sun field. Three unnecessary runs came in the seventh off Smith former House of David hurler. Nuneviller doubled to right field and Price sent him across with a single to the same lot. Bacon bounced a double into left center and Price scored. Wilgus popped a hit into right and Bacon plated. The locals wasted two hits in the last of the eighth when Rowan and Pine singled only to have Nuneviller bounce into a twin killing.

Armour Ties Diegel for Canadian Championship

By The Associated Press

ANCASTER Ont July 28 — For the 12th year in succession Canada's open golf championship will go to the United States. Tommy Armour Detroit professional shot an almost incredible 64 on his fourth round Saturday to tie Leo Diegel Agua Caliente pro for the lead at 277 for the 72 hole competition. Plans to play off the deadlock yesterday were abandoned when it was learned both Diegel and Armour had booked exhibition matches for yesterday and arrangements were made to decide the championship over the 36 hole route at the Hamilton Country Club here Wednesday.

Nick Cullop Minneapolis outfielder this year hit three home runs in one game and the following day hit out a fourth to tie the record of Bobby Lowe, of the Boston Nationals.

Industrial League Games Take Recreation Baseball Spotligh

C., D. & M., FAIRFIELD PLAY ROUNDHOUSE

Shovel Club May Find Itself in Thursday Night League Lead When Week's Play Is Done.

With games scheduled for both Wednesday and Thursday evenings, play in the Industrial League eclipses by far the interest in the other three leagues during the next week's play. The Erie Roundhouse meets its acid test of the season Wednesday when it plays the C., D. & M. team in a postponed game. The Electrics already hold one decision over the railroaders and figure to repeat. If they do the Roundhouse will be tied with the Shovel Club and if the Huber defeats Fairfield it'll be a three-way dead lock.

We're naming the Electrics to beat the Roundhouse and Fairfield to edge the Huber nine thus making a two way tie for the lead with C. D. & M. and Huber tied for third one skinny game behind the two leaders. If the railroaders win you can pack up your troubles and name another world series entrant.

Another Good One

Another good game is on the books for Wednesday when the Serv U Welr and Prospect play off their tie game at the Shovel diamond. If the Tire men win the result gives the Kaps is the Commercial loop championship without the least bit of doubt. If the grocers win they still have a slim chance to come throughout with a victory.

Tonight's tidbit finds United Brethren opposing Lee Street at Shovel which is expected to clinch the No. 2 championship for the latter team. They have a three game lead now with a trio of games to play and a victory this evening will cinch it. They should do it. Forest Lawn and Christians may have a bit of a tussle at Shovel No 2 with the former nine favored.

Epworth No 1 and St Mary's meet is the only outstanding game of the Tuesday night schedule although Epworth Seniors and Juniors renew their feud at Lincoln. Calvary should have a fairly easy time with the Lutherans. If Clark's team loses to the Irish it's too bad for John and plenty good for Calvary.

Thursday Lineup

On Thursday Osgood plays the Shovel Club and Fairfield meets the Erie Roundhouse in the two best looking exhibitions. The Shovel should beat their rival 'Diggers' while the Fairfield Roundhouse clash is a toss up with the railroaders being given a slight edge.

If C., D. & M. beats the Roundhouse on Wednesday we look for Gamble to repeat the dose on Thursday.

Nothing much on Friday with the exception of the K of P Kappa tilt at Garfield. The 'Kaps should win rather easily but any team with Mutt Kellogg on the mound will be dangerous and the Pythians may upset the dope. The Company B vs Serv U Well tilt has been postponed on account of the soldiers being at Camp Perry.

RESTON WINS

By The Associated Press

CANTON O July 28—A college boy still in his teens has possession today of the first championship cup to be awarded by the Ohio Public Links Golf Association. The boy is James "Scotty" Reston of the Greenmount Club Dayton and a student at the University of Illinois who defeated a field of 62 rivals in a 72 hole event that started here Saturday morning. His score was 296 an average of 74 on a par 71 course.

FLOUNDERING PHILS DROP TWO TO FLOCK AS REDS BEAT CUBS

Robbie's Boys See Pennant in Offing, Ferrell Stops Mack's Outfit.

By International News Service

NEW YORK, July 28—The first National league club to start a winning streak now will win the pennant said Manager Joe McCarthy of the Chicago Cubs a few days ago.

Well how about it Joe? queried the Robins of Brooklyn today.

For by lowering the Phillies in a twin bill yesterday 10 to 0 and 9 to 6 the flock flew for five in a row putting them two games ahead of the Cubs and six and a half in front of the third place Giants. Jim Elliott registered his seventh victory in the first skirmish and Senor Adolfo Luque clacked the castanets for his tenth seasonal triumph. Captain Glenn Wright and Alfonso Lopez each homered twice for the Robins and Chuck Klein of the Phillies annexed his Nos 28 and 29 off Elliott.

Those vastly improved Cincy Reds hung it on Chicago 6 to 5 a triple play in the seventh cutting short a Cub rally. It was the Reds fifth straight win over the men of McCarthy.

Heavy hitting by Traynor Grantham and the brothers Waner accounted for two victories 10 to 8 and 8 to 4, by the Pirates over the Giants. Swetonic and Spencer hurled for the Bucs.

Ferrell Wins

Wes Ferrell was too good for the Athletics and won his sixteenth of the year 7 to 1 for the Cleveland Indians.

Pliss Earl a Yankee discard forced one run and chased in two others at Detroit humbled the New Yorkers 7 to 3. Sorrell permitted the Yanks only seven bingle bangles.

Sylvester Johnson could be nicked out of only three hits and Fisher and Haley homered to win 2 to 0 for St Louis over the Braves, the Cardinals taking the night cap also 6 to 1 through Fisher's triple with the sacks stuffed.

Homers by Goslin and Kress featured the Brownies 10 to 9 grab over Boston in the opener and Metzler chemited with two on in the ninth to capture the tea tilt 9 to 6.

Fred Marberry silenced the White Sox with three hits and Washington won 10 to 1.

DAVIS CUP RETAINED BY FRENCH

LOSES IN FINALS

K M BOWER

PROBST TRIUMPHS IN ANNUAL GOLF PLAY

K. M Bower Defeated in Finals for Second Straight Year.

For the second year in a row K M Bower was defeated in his quest for the President's Cup of the Marion Country Club by losing out in the finals. In last year's tournament he was defeated by T R Smith in the finals and yesterday afternoon dropped the 36 hole final match to G Probst, 4 and 2.

Bower had entered the finals by eliminating Spaulding on the 19th hole of their match. Probst defeated T T Hume in the other semi final match four up. Smith last year's champion and Clark will battle for the championship of second flight. Smith reached the finals by defeating Wadsworth in the semis four and three while Clark got a default.

Mrs W A Dennis and Miss Hope Fisher are to meet Thursday in the finals of the annual women's handicap tournament with Mrs Paul Bachman and Mrs K M Bower playing in the finals of the lower flight. Mrs Dennis defeated Mrs W F Gruttridge 4 and 2 in the semis after defeating Mrs H B Hume one up in the second round. Miss Fisher eliminated Miss Emma O'Brien in the second round two up and then beat Mrs Howard Mapes in the semi finals three and two.

Mrs Bachman reached the finals by defeating Mrs Alice Hume 3 and 1 and Mrs Bower defeated Miss Jean Freer 4 and 3.

YESTERDAY'S STARS

Fred Marberry Senators — Gave White Sox three hits and beat them 10 1.

Wes Ferrell Indians—Kept Athletics seven hits scattered to chalk up 16th victory of season.

Lord Cucinello Sukeforth and Stripp Reds—Engineered triple play that stopped Cub rally.

Goose Goslin Browns — Hit three homers and triple, driving in six runs in double bill with Red Sox.

Al Bool, Pirates—Hit double and triple to account for five runs against Giants.

Sylvester Johnson and Herman Bell, Cards—Held Braves to ten hits in double header and beat them twice.

BOROTRA, COCHET IN VICTORIES OVER LOTT AND BIG BILL TILDEN

American Ace and "Bounding Basque" Announce Retirement.

By The Associated Press

AUTEUIL, France, July 28—Once more the tennis musketeers of France have beaten off America's challenge for the Davis Cup.

Capturing both of the final singles matches yesterday, France retained the cup by a margin of four victories to one and left no doubt of the superiority of the French aces Henri Cochet and Jean Borotra, over the best America can offer in a tennis way at the present time.

Borotra, the "bounding Basque" of old clinched the series with a five set victory over George Lott of Chicago 5-7 6-3, 3-6 6-2 8-6, and Cochet put the finishing touches to an overwhelming French victory by trouncing Big Bill Tilden 4-6 6-3 6-1 7-5.

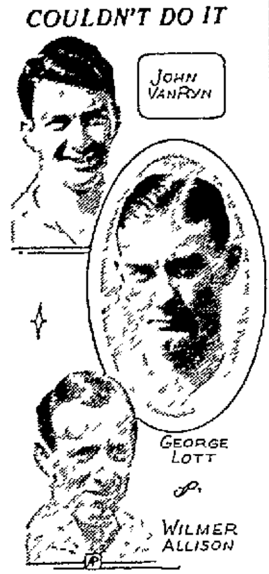
Thus the series ended with Tilden chalking up the only American point by beating Borotra in singles on Friday. Lott lost both his singles matches and Wilmer Allison and John Van Ryn Wimbledon champions lost the doubles to Cochet and Jacques Brugnon.

Cochet showing a remarkable reversal of form after his poor performance at Wimbledon dominated the challenge round as he has for several years. Once he solved Tilden's game yesterday he gave Big Bill as bad a trouncing as the Philadelphian yet has taken. Lott put up a gallant fight against Borotra but the veteran Frenchman called upon his experience in tournament play when pressed and managed to hold the upper hand.

For Tilden and Borotra the series marked the end of their Davis Cup careers. Big Bill was pressed into service this year against his own desires and announced he would never play for the international trophy again. Borotra also told the Associated Press he was through with Cup play.

In the four last challenge rounds all between France and the United States the French have won 14 matches to six for the United States. France lifted the cup in 1927 at Germantown by a margin of 3-2, defended it in 1928 and won 4-1, won again by 3-2 last year and now by 4-1 again.

COULDN'T DO IT



Here are three of the four American Davis Cup players who were repulsed by the French in their attempt to regain the coveted trophy. Van Ryn and Allison's doubles defeat at the hands of Cochet and Brugnon was one of the biggest surprises in the annals of tennis.

MARION EAGLES WIN OVER WAKEMAN, 3-2

Skinny Longshore Limits Losers to Quartet of Blows.

Marion Eagles won a close 3 to 2 decision over the Wakeman Red Caps on the latter's diamond yesterday afternoon when Skinny Longshore limited the home team to a quartet of safe blows. Macken Wakeman southpaw who gets a tryout with the Cleveland Indians next week held the local nine to eight bingles but allowed the Eagles to bunch them a little more effectively than did Longshore.

Longshore whiffed eight of the Wakeman hitters while Macken was setting down nine of the Birdmen via the strikeout route. Sailor Sharrock and Joe Conroy led the locals in batting, while the fielding of Don Penry featured the defensive play. Wakeman's leadoff man in the ninth tripled but the next three batters couldn't get him across.

The score

Marion	002 000 100—3	8	2
Wakeman	200 000 000—2	4	1

Longshore and Conroy, Macken and Reese.

STRIBLING TACKLES PHIL SCOTT TONIGHT

Odds Favor American in Wimbledon Scrap, Althou "Phainting Phil" May Surprise the Boys.

BY HYPE IGOE

I N S Sports Writer

NEW YORK July 28—This night in deah ole Lunnon town our own Billy Stribling fights the leaning tower of that great city Mister Philip Scott.

The world will not be shocked at what Mister Philip Scott may do for the simple reason that Mister Philip Scott is quite apt to do most anything.

It is eight to five that Philip will go to the floor and claim piteously that the Georgia Peach is a belting of him below the Mason and Dixon line.

That foul claiming habit has squirmed its way right into Scott's bones and he just can't help complaining about belly blows.

That was proven when Jack Sharkey's final blow at Miami hit him full in the chest yet Phil made motions that indicated that again he had been struck low.

Tonight's fight if it turns out to be one affords Stribling a chance to get back into the heavyweight running. It is a cinch that William Lawrence Stribling is not the worst fighter in the world.

Jack Sharkey might decide to retire if he can't get Schmeling into the ring. Jack's a fussy funny fellow at times and he may decide that luck is not his and bow out. T being the case who is there to ca on in the name of the old U S A

By the same token, Phil p Sh Scott might hit our Willie on button and loom up all over a He will have in his corner to that hustling little man James Johnston a cunning cuss who o picks a fight, a lost one right out the coals to make a hero of the who has been jolly well receivin bumps.

I doubt if there is a man livin this fight racket who could be Phil Scott the money little Jeems garnered for him. Why Ph wanted to go home and open a b ber shop just before the fight Otto Von Porat. It took all Jimmy's soothing line of gab to vince Phil that he ought to defer ing until Jimmy had got him a 500 tidbit for that fight.

It would have taken Phil 17 y to have taken in that much mon shave for shave yet he bitterly tested waiting long enough to cl foul and gather the money.

No telling how it will come. We'll not have to wait until n fall to get the sad news one way the other as there is six hours ference in time. How Jimmy's came out will be on Broad around 6 o'clock.

ONCE MORE JANE IS GLAD TO ENTERTAIN

She is Proud to Receive Visitors in The New Home.

All unawares the Smiths had outgrown their apartment. It did not adequately reflect their position. Chance remarks of friends brought this fact home to Jane Smith. Immediately she talked to her husband, he agreed that his substantial business position demanded a substantial home. So they bought one.

Perhaps this is true in your case. Have you outgrown your present living quarters? Could you not better express your position in the business world, and your faith in your family, in a home of your own?

Then it's time to BUY. Purchase YOUR home as the Smith's did - - through the offers uder Classification "Homes for Sale" in our Classified Section.

LEGAL NOTICE

Notice is hereby given to the taxpayers of Claridon Twp. School District, and all others interested, that the budget for the said School District has been compiled according to law, and that it is now available for public inspection at my residence on the Harding Highway in Claridon Twp., Marion County, Ohio, and that a public hearing will be held at the School Building on the Marion-Mt. Gilead road on the evening of August 4, 1930, at 8 o'clock.
M. V. LASHEY, Clerk
July 28, 1930

NOTICE OF APPOINTMENT

Estate of Hester A. Eversole, Deceased.

Notice is hereby given that Elizabeth Dowell and Mildred Sells have been appointed and qualified as administratrices of the Estate of Hester A. Eversole, late of Marion County, deceased.

Dated at Marion, Ohio, this 10th day of July, A. D. 1930.
OSCAR GAST.
Probate Judge, Marion County, Ohio.
Case No. 11036.

Power Goes Off as Transformer Burns Out

One of the three transformers of the C., D. & M. Electric Co., providing power and light for the city burned out yesterday at 12:30 p. m. at the company's plant on North High street.

Electric company officials said today that the exact amount of damage done to the transformer is not known but it is thought to be ruined. Fire caused by the burning out of the transformer was extinguished by city firemen. Power in sections of the city was off for a short time.

MARION RESIDENT DIES IN FOSTORIA

Miss Nettie Prettyman, 69, Dies at Church Home; Services Here Tuesday.

Miss Nettie Prettyman, 69, for many years a resident of Marion, died at the Church of the Brethren Home for the Aged at Fostoria, O., Saturday.

Miss Prettyman, who was known as "Aunt Nettie" to the many friends she made in her contact through church work, joined the First Church of the Brethren in Marion on March 13, 1913. She was a teacher in the Sunday school for many years and was an officer in the aid society during her years of active church life.

More than a year ago her health began to fail, and she expressed the desire to go to the home of the church which she had worked in for many years. Miss Prettyman was the last of 10 children born to Cord and Comfort Prettyman, of near Agosta. She was born there Jan. 28, 1861.

Funeral services will be held at the First Church of the Brethren in Marion, Tuesday at 10 a. m. with Rev. G. G. Canfield, pastor, officiating. Interment will be made in the family burying plot in the Agosta cemetery.

SHERIFF HOLDS MAN FOR BOX CAR RAID

Ten Men Arrested at Stone Quarry Here; Sheriff Checks Burglary.

A Negro, who gave a fictitious name and address, is being held in county jail following the arrest of 10 Negroes early today in the Evans stone quarry northwest of the city.

The men were arrested when it was reported they had broken into a freight car on the Hocking Valley railroad siding. All were released however, with the exception of one whom Sheriff John J. Francis is retaining pending a checkup on the amount of merchandise stolen.

Four other Negroes were taken off a Hocking Valley train at Delawar this morning by Delaware county authorities and are being held ther until the checkup is made, Franc said.

Slayer Calls on Police with News of Killing

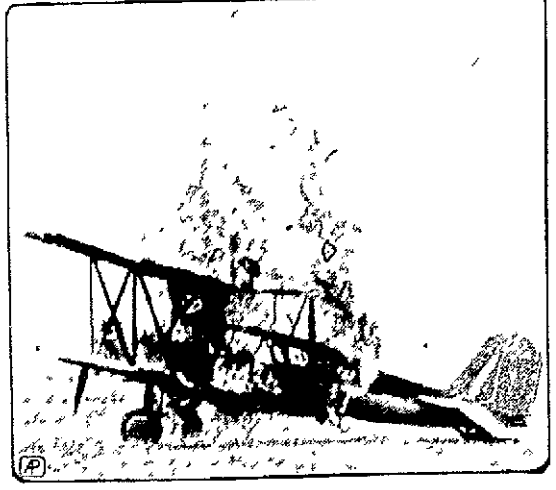
By Brush Moore Leased Wire

CANTON O July 28—A homicide charge was placed against Rueben Jones 30 Sunday after he had walked into police headquarters laid a 38 caliber revolver on the counter and announced to Acting Desk Sergeant Park Beazle that he had just shot a man

Police who investigated found his victim Lindsey Spence 30 dead in a pool room in the southeast section of the city

Jones and Spence had been taking part in a game of black jack in the pool room and an argument started over a 85 cent bet

PRIZE "SAFETY PLANE" BURNS



The 1930 Guggenheim "safety plane" awarded a prize of $100 000 as the nearest approach to "fool proof" is shown as it burned during the American Legion air circus at Cleveland O

COURT TO GET STREET SUIT

City Paving Litigation To Go Before Appeals Judges Here Tuesday.

The Main street paving case will be fought over again before the third district court of appeals Tuesday at 10 a m when the city of Marion will attempt to obtain a decree from the higher court overruling an injunction granted several weeks ago by common pleas court

Grants Injunction

The injunction perpetually restrained the city from entering into a contract with P Drake & Son for improvement of the street The restraining order came after the court heard a petition for the injunction brought by Llewellyn L Aller one of the contractors who were unsuccessful in obtaining the contract

Aller claimed his $50 000 bid for improvement of the street from George to Columbia streets was approximately $7 000 lower than that of the Drake firm and that he should therefore have been given the contract The law holds that public contracts must be awarded the lowest and best bidder

City Service Director D T Harlow and Mayor E Don Jones two of the three members of the board of control which awarded the contract defended their award by declaring on the stand that they considered the Drake firm to be the "best" although not the lowest

Justice To Preside

The court ruled however that Aller's reputation as a contractor is as good as others and that if he did not meet the contract specifications his bonding firm would be liable and the city therefore would not suffer loss

Judge Charles L Justice of Marion will preside at the hearing His colleagues are Judge Phil M Crow of Kenton and Judge H L Gurling of Lima

The law firm of Ochs & Roller is counsel for Aller and City Solicitor Carter M Patton will handle the case for the city

EMBARGO SOUGHT ON RUSSIAN GOODS

U S. Wage Earners' Conference Would Bar All Products of Soviet System

NEW YORK July 28—Exclusion of all goods from Russia is sought by America's Wage Earners Protective Conference organization headed by James Ogden Omahk Chicago and American Federation of Labor

The organization desires a general embargo in effect Jan 1 1932 when the provision of the new tariff act extending restrictions on goods produced by convict, forced or indentured labor from manufactures to all products and raw materials become operative Pending the general embargo the conference seeks exclusion of Russian goods which might come under the classification of dumping

Contending that the entire soviet economic system is based wholly or in part upon convict forced or indentured labor Woll said To permit the industrial and agricultural products of such a system to come into a country, where labor is free where the standard of living is high and where the principle of high wages has been generally accepted is to undermine the very foundations of the American economic and social scheme

Mother Sees Child Plunge to Death

By The Associated Press

CHICAGO July 28—Three-year old Elizabeth Gratzke rocked to her death last night as her mother watched helpless from another room

The child standing in a rocking chair was swaying back and forth the chair steadily edging toward a third floor window

Before the mother could reach the child's side the screen was knocked from the window and the child hurled to her death on the sidewalk below

BLAZING OIL WELL THREATENS HOMES

200 Dwellings Evacuated as Texas Blaze Roars Defiance to Fire-Fighters.

By The Associated Press

REFUGIO Tex July 28—A roaring jet of flame leaping into the sky from the Houston Oil company's wild gasser No 1 Strauch today had driven 200 residents from threatened homes and was defying efforts of workmen to extinguish it

The well ignited from an unknown cause Saturday night with an explosion which blasted a crater 20 feet across The parched oil field settlement of frame buildings handicapped by drought depleted wells was in imminent peril of destruction

Steam lines were being laid for attempts to smother the flames Two small frame structures owned by the Houston Oil company burned yesterday but other buildings and derricks were hurriedly moved back to a safer distance

No estimate of the flow of gas was obtained but it was believed to be several million cubic feet daily

Residents of Beeville 32 miles away reported they could see the pillar of flame at their homes there

free wheeling

Studebaker's epochal contribution to motoring—*the sensation of 1930!*

FREE Wheeling is the second milestone in automobile development The first was the electric starter in 1912

Free Wheeling *with positive control*, pioneered by Studebaker in 1930 — is an exclusive Studebaker feature available only in the new President and Commander Eights

Due to Free Wheeling *with positive control*—

You shift from high to second, back and forth, at 40—50 miles an hour, and never touch the clutch

You need use the clutch only to start or back up

The braking power of your engine is available as readily as in conventional cars

For the first time in a motor car you get the full benefit of momentum *automatically* When your car has gone 10 000 miles your engine has "worked" only 8,000 miles

You save 12 per cent on gasoline, 20 per cent on oil—even more in heavy traffic

Strains on engine, transmission and axle are lessened Tires wear longer

There is nothing new to learn—Free Wheeling with positive control is simplicity itself You drive just as you do in a conventional car.
